Code Layout, Readability and Reusability

Project Structure

The project follows a modular architecture to improve readability, maintainability, and scalability.

Folder Structure

- src/
- models/
- data/
- screenshots/
- streamlit_app.py
- app.py
- requirements.txt

Readability

- Proper variable names
- Modular functions
- Comments for important sections
- Consistent indentation
- Easy navigation

Reusability

- Prediction modules can be reused.
- Preprocessing module is reusable.
- Gemini API integration is reusable.
- Streamlit interface can be extended easily.

Conclusion

The project follows good software engineering practices by maintaining readable and reusable code.
